

Ashish B

Bangalore, India | +91-6361272343 | ashishachar24@gmail.com | LinkedIn Profile

Professional Summary

Results-driven Frontend & Full Stack Developer with a Bachelor's degree in Computer Science. Skilled in React.js, Redux Toolkit, REST API integration, Node.js, FastAPI, and Python. Proven ability to build scalable, responsive web applications and AI-powered systems. Experienced in Agile workflows, CI/CD pipelines, and delivering production-ready features.

Technical Skills

Programming Languages: Python, Java, C, JavaScript (ES6+)

Frontend Development: React.js, Redux / Redux Toolkit, React Router, Vue.js, HTML5, CSS3, Bootstrap, Responsive Web Design

API & Integration: RESTful API Design & Consumption, Axios, Fetch API, JSON

Backend Development: Node.js, Express.js, FastAPI, Flask

Databases: MySQL, MongoDB

Machine Learning: Scikit-learn, Pandas, NumPy, OpenCV, NLP, Text Preprocessing

Tools & DevOps: Git, GitHub, Azure DevOps, CI/CD, Agile/Scrum, SDLC

Professional Experience

Full Stack Developer Intern

Feb 2025 – Oct 2025

IVIS Labs Pvt Ltd

Mysore, India

- Built dynamic, responsive frontend interfaces using React.js and Vue.js, improving user experience and application performance.
- Integrated REST APIs using Axios and Fetch API to connect frontend components with backend services, enabling real-time data rendering.
- Managed complex application state using Redux / Redux Toolkit, ensuring predictable data flow across components.
- Designed and developed RESTful APIs using Node.js, improving client-server communication efficiency.
- Integrated backend services with MongoDB and MySQL for optimized data retrieval and storage.
- Implemented Git-based version control and supported CI/CD pipelines using Azure DevOps.
- Performed data preprocessing and annotation to improve ML dataset accuracy.

Advanced C Programming Intern

2021 – 2022

ATME College of Engineering

Mysore, India

- Developed modular C programs implementing linked lists, stacks, queues, and sorting algorithms.
- Optimized memory management and improved algorithm efficiency.
- Strengthened understanding of pointers, dynamic memory allocation, and time complexity analysis.

Projects

AI-Powered Ayurvedic Drug Recommendation System | Python, NLP, Scikit-learn, FastAPI, React.js

- Built an NLP-based recommendation engine using TF-IDF text preprocessing and feature engineering to classify and suggest relevant Ayurvedic drugs.
- Evaluated multiple ML classifiers (Logistic Regression, Naive Bayes, Random Forest) and selected the best-fit model for improved prediction accuracy.
- Exposed predictions through a FastAPI REST backend consumed by a React.js frontend via Axios, enabling real-time recommendations.

SMS Spam Detection System | Python, Scikit-learn, Flask, MongoDB

- Built and compared Naive Bayes and SVM classification models for accurate spam detection on a large SMS dataset.
- Constructed a complete ML pipeline spanning text cleaning, TF-IDF vectorization, model training, evaluation, and live API deployment.
- Served predictions via a Flask REST API and stored classification results in MongoDB for persistent data management.

Real-Time Artistic Image Converter | Python, OpenCV

- Created a real-time computer vision application supporting multiple artistic filters on a live webcam feed using OpenCV.

- Optimized the image processing pipeline for low-latency rendering on standard consumer hardware.

Blog Idea Generator API | FastAPI, Python, REST API

- Designed a production-ready REST API with FastAPI featuring auto-generated Swagger documentation and modular router architecture.
- Enforced strict input validation using Pydantic schemas, reducing invalid request errors and improving API reliability.

Education

Bachelor of Engineering – Computer Science

ATME College of Engineering, Visvesvaraya Technological University
CGPA: 8.06 / 10

Dec 2021 – Jun 2025

Mysore, India

Pre-University – PCMC

Sadvidya PU College
Aggregate: 76%

Jul 2019 – Apr 2021

Mysore, India

Certifications

- Full Stack Developer Internship Certificate – IVIS Labs Pvt Ltd
- Cybersecurity Training – DST (Domain Specific Training)
- Operating Systems – NPTEL
- Oracle Cloud Infrastructure Foundations – Oracle
